

# TCS Delineation Posts

## TCS-DP

Delineation posts create a “counting point” for accurate system counts by controlling traffic speed and proper lane travel throughout the parking facility. The delineation posts are composed of flexible polyurethane plastic which quickly restore back to upright position after being driven over.

### Product Highlights

- Quick connect for fast installation
- Choose from adhesive to anchor base
- No maintenance required
- Designed for daily traffic abuse
- 3 high reflective bands
- Reflective base
- Strong and durable spin weld design
